#### Cites Health Rule On School Children

The board of health through its secretary, Charles O. McCullom, has issued a notice to parents of school children regarding the exclusion of pupils from school after illness.

After a recent amendment to the law relative to the exclusion of certain children from the public schools (Sec. 55, Chap. 71) there has been some confusion, the board learns, as to its present application.

It is still necessary for the parents of a school child, the board says, to obtain a note from the doctor whenever the child has had or has been exposed to a contagious disease before that child can return to his or her classroom. If a child returns to school without such a certificate he or she will be referred to the school physician by the school nurse for examination.

Misunderstanding of this law in some communities has led the members of the Andover board of health to clarify their position in such cases.

#### Andover Cardinals Operated At Profit

Charles O. McCullom, who represented the Andover Boosters in connection with the operation of the Andover Cardinals in the Kinnis Suburban Little League has issued a financial statement showing that a net profit of \$123.06 was realized for the season which will

A well preserved copy of the Andover Advertiser for March 31, 1855 has just been found by Howard J. Peters, 79 Elm st., in the drawer of an old-fashioned dresser which was part of the Moses Foster Jr. estate.

This issue carried the notation that it was "published every Saturday at the office of John D. Flagg, opposite Phillips academy, conducted by an association of gentlemen".

The front page was taken up mostly with articles culled from other periodicals and stories from some other papers of the county. One item described a new topographical map and directory of Essex county which was available at \$5 a copy.

An inside page carried the remarks of the Rev. Dr. Fuller delivered at the funeral of John Nightingale Hinckley in Christ church Sunday afternoon, Mar. 25.

Another item told of the examination of the high school in Frye Village to be held Apr. 1 to which the public was invited.

The growing cost of operating local government will be continued in 1953, according to the previews of the new year made today for readers of The Townsman, by heads of three of the town's major departments.

What effect this will have on the tax rate Chairman Roy E. Hardy of the board of selectmen and assessors did not attempt to predict in his discussion of the financial outlook for the coming year. He did note however, that the increase in the school department budget will add \$3.75 to the tax rate and the proposed \$90,000 trunk sewer for Ballardvale and other requests usually made in the special articles would, if all were approved by the town meeting, add from \$4 to \$8 to the rate.

Mr. Hardy also called attention to the fact that legislation in the past few years has deprived Andover of more than \$100,000 a year.

The problems presented by the very high increase in school enrollment is discussed in detail by Gordon L. Colquhoun, chairman of the school board in order to acquaint the public with the crowded conditions that exist.

Accomplishments of the board of public works and its plans for the future are described by Sidney P. White, chairman of the board, and give another indication of the way the town is growing.

By ROY E. HARDY  
Chairman, Board of Selectmen

A year ago I prefaced my remarks on the 1952 financial outlook of the town by saying "Town expenses continue to mount, freedom is not free, and we seem to have very little control over the growing tax burden, even in local affairs."

Opinions change rapidly, and any view of the future is subject to daily revision. I have been aware for some time that our town could expect returns from the state department of corporations and taxation in an amount substantially in excess of the figures that we were compelled to use in fixing our 1952 tax rate. I had hoped this extra return might offset the increased school budget, but the 1953 amount

Chairman, School Committee

When I was elected to the School committee in March 1946 there were 1262 pupils in the Andover system. At the present time we have 2056 pupils, and next fall we have an expected enrollment of 2300. The fall of 1952 we opened with an increase of 246 pupils, which was 146 more pupils than we anticipated. 141 of these pupils came from parents who had moved into town. Our present enrollment and our enrollment now projected forward is far in excess of the projected enrollment by the Davis survey taken in 1949. The present high percentage of increase and the future anticipated increase have given us and will give us a distinct problem.

In May 1952 the School department opened the new school in West Andover and in September the pupils entered the new Central elementary school. These two schools constituted a major step toward solving our housing problem.

It is very evident at this time

Chairman, Board of Public Works

The largest single job performed by the department forces this year was the extension of the 16" cast iron force main from Phillips street to the Bancroft Road pumping station. This major addition to our water system has resulted in a much improved flow of water both to the reservoir during the hours when pumping is necessary, and from the reservoir into the distribution system when the pumps are idle.

This job was started in August and water was turned into the system for regular use on December 3th, 1952. Progress was not as rapid as was hoped for because of the necessity of working with extreme care around the many utility lines in ledge in the vicinity of Hidden road, and because of limitations placed on the amount of trench that could be opened at one time in the state highway section. However, it is gratifying to note that no damage was done by blasting and no disruption of services was caused by the work.

## Nickel and Coal

Do you know that nickel plays a  
vital part not only in the production  
of coal but also in its conversion to  
light, heat and power? The cutters,  
conveyors and miners' lamps that  
are used in the mining of coal, the  
railway engines and the road ve  
hicles concerned in its distribution,  
the plants converting it to steam  
power and electric current — in all  
these, nickel is present.

Ballardvale Plant  
To Expand In 1953

Acquisition of a substantial in  
terest in the Watson-Park Co. of  
Ballardvale by Reichhold Chemi  
cals Inc., calls for an expansion  
of the local plant in the coming  
year.

The Watson-Park Co. at present  
is one of the country's foremost  
producers of formaldehyde. It  
uses the floor space of nine build  
ings with 42 employees handling  
the control work. Its products are  
used in many industries including  
textiles, leather, plywood, paper,  
synthetic lumber and rubber. Some  
of its largest customers are Gen  
eral Electric and U.S. Rubber.

Howell F. Shepard, treasurer of  
the 27-year old company, will con  
tinue in charge while his partner  
Kenneth B. Park, former president,  
will remain actively connected  
with the firm in a consulting capa  
city.

The new affiliation will call for  
doubling the present force of em  
ployees. The local plant is now  
affiliated with the larger Reich  
hold firm, although not a part of it.

The Reichhold interest in Wat  
son-Park stems from the big out  
fits recent launching into large  
scale production of formaldehyde  
resulting in the vital chemical  
being turned out at the rate of 50  
million pounds a year. It needs to  
run 90 million pounds a year.

## The Outlook For 1953

With the coming of a New Year and the passing of the old it is the usual custom to reflect for a few moments upon events that have just passed and then try to peer into the future to see what the coming year will bring.

For readers of The Townsman three of the town's officials have done just that, and in another part of today's issue have presented their views as heads of three major departments in the town's government.

Financial matters and some of the items that are expected to come before the town meeting are discussed by Roy E. Hardy, chairman of the board of selectmen and assessors, who at this time last year forecast a \$3 to \$4 increase in the tax rate which eventually amounted to \$4.

Mr. Hardy this year makes no prediction but in his conclusion notes that "the strong tendency is still upward, especially in growing towns, and Andover is growing."

Gordon L. Colquhoun, chairman of the school committee, has an interesting statement about the school system which had such an unexpected increase in enrollment last September and which appears to be due for another substantial increase next fall.

Completion of the 16-inch water main along South Main street to connect with the reservoir was one of the major projects of the board of public works which Sidney P. White, chairman of the board, reviews in his discussion of the several divisions in that department.

The views of these officials which The Townsman presents to its readers today should be a matter of great concern to all people of Andover.

These officials are heads of departments serving the whole town and in their discussions are laying before the citizens some of the various problems that are facing them in the new year.

These discussions touch upon subjects to which all voters should give serious attention in order to give them proper consideration when called upon to act on them at the next town meeting.

### NEW BOOKS

Beyond The High Himalayas, Douglas.

The author, who knows the facts as not too many Americans do, warns that unless the people of Central Asia are saved from communist influence they and all Asia will soon become part of the Soviet sphere. Here he paints a sweeping picture of the vast area of Asia which is the pawn in the three-sided battle being waged among communists, those who believe in democracy and the adherents to tradition.

Costa Rica, Twentieth Century Fund.

Here are the findings of a survey looking into and recording measures that might be taken to give a hand to this little democracy. About the size of Vermont and New Hampshire, combined this progressive and literate people are in serious straits economically. The survey outlines technical and financial assistance which could be given by foreign and international agencies.

### Narcotics: America's Peril,

Oursler.

Will Oursler, a police reporter and war correspondent, and Laurence Smith, a writer, have combined their talents to present this serious study of narcotics in America. Most of the material was secured from the files of the federal bureau of narcotics.

### Communist Manifesto, Marx.

In the introduction, Harold Laski explains why this document has had such an influence in so many parts of the world. He shows how it came to be formed, gives the background of leaders of the party and outlines the history of the league.

### English Sports And Pastimes,

Fole.

A beautifully made book, which illustrates by paintings, prints and photographs the social history of England as developed by the common man in his sports.

with marine corps. Pvt. Gauthier was first Andover resident to be killed in action.

New sugar rules issued by rationing board.

West Center and North school parents to consult with school authorities regarding fuel and transportation problems. Boilers in both schools may be converted from oil to coal.

Heavy rain falling on recent 3-inch snowfall made travelling on streets and sidewalks yesterday very difficult. Much damage to shrubbery by snow and ice.

### How To Understand Propaganda,

Lee.

An explanation of the whole subject of present day propaganda and a guide for adapting it to a democratic society.

### The American Record In The Far East, 1945-1951, Latourette.

An analysis of America's Asiatic policy from the moment of Japan's surrender to the time of the Japanese peace treaty.

### Basic Sheet-Metal Practice,

Glachino.

Excellent book for those who want to work metal as a hobby or in a home workshop.

### Illustrated English Social History, Trevelyan.

This is the fourth in the series, and covers the period of the nineteenth century. The selection of pictures is a remarkable piece of work in itself and the running comment makes history more of a pastime than a study.

## Rare Snow Geese Observed Here

A high total of 32 bird species was recorded in the sixth annual Greater Lawrence Christmas bird count held Dec. 21. Observers were Mr. and Mrs. James Doyle, Mrs. Wilson Knipe Jr., Mrs. Mervin E. Stevens, Mrs. Thaxter Eaton, Paul H. Leslie, Albert Retelle Jr., George E. Zink and Oscar M. Root.

Three very rare snow geese were observed by Mr. Retelle as they were flying in a southeasterly direction over the Merrimack river in West Andover.

The following birds were recorded for the first time on a local Christmas bird count, common loon, snow goose, mallard, bobwhite, screech owl, great horned owl, long eared owl. A total number of 1349 birds were recorded.

## Makes Bequests For Local Man

Bequests of \$1000, a table, a mantle clock, two pink jars and other household articles for Chester Holland, a cousin, were contained in the will of Mrs. Elizabeth P. Fairfield of Peabody, a widow, it was learned when the instrument was filed last week at the registry of probate in Salem.

Mrs. Fairfield who died Dec. 16, had property valued at about \$14,000, signed the testament Mar. 3, 1950 and nominated Atty. Robert W. Hill of Marblehead executor.

What's "in the works" at G. E.

AT THE KNOTTY NOVELTY CO., Junior Achievers turn out catface potholder holders. Here Joseph Taliger of Lynn, Production Adviser Joe Lopez of Lynn and G. E.'s River Works Accessory Turbine Division, with "Achievers" Donna Fauci of Saugus and Dolores Maresco of Saugus put the finishing touch on the holders. Joe Lopez is typical of many G-E employees who devote their spare time to helping young folks, through Junior Achievement, get an understanding of business.

## Minding Their OWN Business!

Know what? Teen-agers are actually operating 30 companies in the North Shore Area . . . no wonder G. E. is proud to help sponsor Junior Achievement!

What's going on here? It's Junior Achievement in action — that wonderful program that teaches young people from 15 through 20 how business under the American free enterprise system operates. Ambitious young "Achievers" learn by doing.

They form their own company; set up a complete organization including the board of directors, president, secretary, treasurer and sales and manufacturing managers. They jointly determine the service or the product they will make and market. They finance their operation by selling stock at fifty cents a share.

Then they go to work, paying themselves wages and *actually minding their OWN business*. Typical products and services sold by Junior Achievement companies are hand cream, lamp shades, jewelry, printing products, banking facilities, Christmas candles, napkin holders and a host of others.

During one school year, the "Achievers" work two hours one evening each week — between 10 and 20 young adults to a "company." At the end of their business year they liquidate and pay off the stockholders, usually with a profit of from 5 to 20%.

Each "company" is aided by three adult advisers, volunteers from local business concerns who, in turn, act as sponsors for individual Junior Achievement companies. And that's where G. E. comes in! General Electric is proud to give financial and guidance support to Junior Achievement. At present 40 local G-E people are serving every week as advisers.

Of the 16 booming "businesses" in the "J. A." Center in Lynn, 12 are sponsored by General Electric. G-E folks find great satisfaction in helping young people toward a better understanding of business through Junior Achievement. What better way to give our high school students a true appreciation of how American business operates . . . what better way to insure good citizenship . . . what better way to build good leaders for the future.

THE JAYCHEM COSMETIC CO. Junior Achievers Lois Flanagan of Lynn, Sales Adviser Ed McKay of Lynnfield and G. E.'s West Lynn Works Transformer Section, and "Achievers" Helen Curtin, Lynn; John Gallo, Revere; Janet Chapman, Lynn; Nancy Maxwell, Lynn; and Marcia McCann of Saugus are at work producing hand lotion.

THE TEEN NOVELTY CO. "Achiever" Shirley Anne Robie of Saugus watches Sandra Stone of Saugus display the finished product, costume jewelry, with the full approval of Accounting Adviser Don Woodbury of Salem and G. E.'s River Works Accounting Department and "Achiever" Lorraine D'Entremont of Saugus.

is allocated \$4000 to make two classrooms in the basement of the Shawsheen school to lessen the crowded conditions that now prevail. This is only a temporary expedient because by 1954 both the Stowe school and the Indian Ridge school will again be operating at capacity.

Andover is a growing community and more and more people with children are moving in. This will again strain our housing facilities and for that reason at the November meeting of the School committee it was voted to insert a special article in the town warrant and ask the moderator to appoint a school building planning committee to consider the needs of the town for the next ten years. We foresee no levelling off of our present growth before 1956.

The problem of this committee will be many. At the time of the Davis survey in 1949 it was es-

timated that the high school and junior high school would be adequate for a decade. It now develops that due to increased enrollment far above what that survey showed, the program at these two schools will be seriously curtailed in 1955 due to inadequate housing.

We have requested the assistant assessors to take a census of all children in the town from birth to seven years old for a working basis for this committee.

Your School committee intends to do its best to see that your children have the best possible teachers. I think that I should point out at this time that our present salary schedule, while by no means not one of the highest in the state, is now adequate to attract good teachers to Andover.

Our budget will increase no doubt in proportion to our increase in enrollment. It should be pointed out at this time that the per pupil cost for Andover for the year ending 1951 was \$226.00 and with a budget of \$503,000 for the year 1953 the per pupil cost will drop to \$219.

Beginning in September 1952 Dr. James Grew, Mr. Stephen Whitney and Mr. Floyd T. Humphries taught French four times a week for a twenty minute period to all our third grade pupils in the Central elementary school. This program met with great success and the committee feels that public thanks should go to these men who so generously gave their time.

The Andover School committee looks forward to another critical year during which time it will strive to continue to give Andover the best public schools possible for the least possible cost.

The committee realizes that our budget for this year is high. Fuel and power have increased due to the new buildings. This repair and maintenance item has doubled due to the making ready the additional rooms at Stowe, Indian Ridge and Shawsheen. However as heretofore the largest item is for salaries which represents 78% of the total budget.

Normally we spend between \$5 and \$10 per child for book replacements and supplies. But with new children coming into the system it is necessary to outfit the child complete. During the school year an elementary child uses books and supplies valued at between \$50 and \$60 each. However, the committee feels that they can run the schools adequately and to the satisfaction of all on this amount for this year.

Keeping an open mind makes it more likely that something will drop into it.

## HARDY DISCUSSES FINANCIAL OUTLOOK

(Continued from Page One)

recently announced by the school department shows an increase almost \$30,000. in excess of the extra monies to be received from the state.

Home building during 1952 was continued at about the same pace that we have experienced during the past three years. Many people believe that this growth should result in lower taxes for the rest of us. This belief is not only false, but the very reverse is true. The taxes we collect on new homes will pay no more than the cost of educating the children from those homes. As educational costs are but one third of our total town budget, each new home, with a few exceptions, places an additional burden on all those previously paying Andover real estate taxes.

I hope that I am practical and not an alarmist. In the past few years, the Legislature and the Governor have put forth various claims concerning no new taxes. The matter is too involved for discussion here, but legislation during the past four years has deprived the Town of Andover of over \$100,000. per year that would have been returned to us under the regulations prevailing five years ago. I have objected to many of these changes, both as a representative of the Town of Andover and as the chairman of the legislative committee of the Massachusetts Association of Assessors. I have received no cooperation with the exception of help from a few assessors and Mr. Henry F. Long. Even the Massachusetts Taxpayers Association, that I have helped to support for many years, neglected to answer my letter of protest. I hope this condition has been remedied. I am not too optimistic.

Last year the town appropriated a little less than \$81,000. in special articles. One item alone in

our 1953 warrant will call for more than this amount, and I will be surprised if the total requested is not two or three times the figure mentioned above. Full compliance with these requests would mean another \$4. to \$8. increase in our tax rate.

Except for the possibility of salary adjustments, I am of the opinion that departments under the control of the selectmen, about 40% of the total budget, can operate in 1953 at a total figure not exceeding that of 1952, although costs of individual departments will vary, some going up, some down. The school figure has already been publicized, adding \$3.75 to our tax rate. Mr. White is giving the story of the board of public works in another column. The special articles are in the hands and minds of our citizens.

I am not hazarding, at this time, a guess concerning our 1953 tax rate; there are too many variables. I will just emphasize that the strong tendency is still upward, especially in growing towns, and Andover is growing.

## ACTIVITIES OF BPW

(Continued from Page One)

This job is substantially complete; there remains only road repairs, lawn repairs and a secondary cross connection to be completed next year, which will all fall within the original appropriation.

The pumping head at Haggetts Pond Station has been reduced about 20% at usual rates of pumping due to the new section of force main. This means a reduction in pumping costs. Also, it is possible to pump at higher rates now, thus increasing the capacity of the water system at all times of the year.

In addition to the 16" extension mentioned above the water department has installed two short extensions of 6" size. One of these is on High Plain road and the other on Reservation road, and both serving expanding residential areas.

Under the long range plan we have acquired the land necessary to allow for a larger low service reservoir off Bancroft road, and completed enough land surveys in the Haggetts Pond area to enable us to study what further land might be needed to protect our source.

The permanent bounding of some previously unmarked land has been completed this year. Beacon street has been improved from Lowell street to the newly opened West Center school. Drainage has been installed, a sidewalk constructed and the roadway widened and resurfaced. A cut-off roadway and sidewalk thru the end of the old West Parish school will be part of this work; but will have to be delayed until the present building has been removed.

Sidewalk work has been performed in various parts of the town and many streets have received surface treatment of tar and sand. Sections of Lowell street and River road have been armor coated. Work of this sort is routine but follows a well planned schedule. Along this same line of continuing maintenance have been gutter improvements, culvert replacements and roadway patching thruout the town.

A section of Rogers brook north of Chestnut street has been enclosed in large diameter concrete pipes. This project was one of difficult construction and relieves the unsightly condition and eliminates a recurring maintenance problem.

blem. Another section of this brook in the Town park, has been fenced with a rustic type wood fence in an effort to eliminate a potential danger spot.

The foregoing work has been noted because most of it is new construction. However, it should be remembered that all of this has been done in addition to the performance of the multitude of minor services which we all take for granted; but which would soon be missed if curtailed in any way.

In anticipation of consolidating its 1953 program the Board is currently studying the requirements and costs for a system of sewers to serve Ballardvale, and for a system of storm drains at Shawshen Heights. Both of these projects will require surveys and further design studies, and will require considerable funds to construct.

Some water and sewer extensions are under consideration now; but in general much of this type of project depends on what is placed on the warrant by various petitioners, and on the number of articles finally approved by the town meeting. However, one job definitely scheduled for next summer is the construction of an underwater main at the rear of the Watson-Park Co. This work will be done at a time when the Shawshen river is low. The existing line crosses on a bridge which is in a dangerous condition and beyond repair. In this same area some consideration is being given to an extension to connect two dead ends on River street which will then become a circulating loop.

One highway department job under serious consideration is a plan to widen Whittier street along the school property, and to construct a new access driveway to the rear parking area. This plan is aimed at relieving a traffic problem.

lem and its attendant dangers in the Central school area.

The unpaved portion of Greenwood road has been worked upon during the past two years as time and funds have permitted, and the finished grading and paving have generally been considered as items that would come in time. In the light of certain changes in that district, the finishing up of this piece of highway is again being investigated to see if it is a necessary and desirable improvement for 1953.

The foregoing summary of the board of public works' planning is brought out to indicate the direction of present thinking. In the weeks between now and the closing of the budget, the board may be forced to delete certain items and add others in an effort to arrive at an economically feasible program.

The statement shows that \$300 was advanced by the Boosters to underwrite the program and \$251.20 expended to outfit 15 boys, the balance of \$48.80 being returned to the Boosters.

The net profit from fence advertising amounted to \$388.20; a check of \$97.11 was received from the league as the team's share in season's gate receipts, and \$26.62 received as the farm team gate receipts, a total of \$511.93. The cost of operating the Cardinals and the farm team was \$388.87, leaving the \$123.06 profit.

## "Here's why I admire you."

says **BARBARA STANWYCK**

*I've always admired* straight-forward people. The kind of people who know what they want, and are doing something about getting it. The kind of people who are investing in *their* future and the *peaceful* future of their country through United States Defense Bonds. People like you!

I'm a regular Bond owner myself. And when I think about how you and I and millions of our friends and neighbors now own more than *49 billion dollars* worth of our country's interest-earning Bonds—it makes me proud. It means that we're a part of the greatest patriotic success story of all time.

A success story that we Americans have built of our own free will. Not only because we have found that Defense Bonds are a *sure* way to save money. But because we believe they represent a *realistic* plan for peace and security—in a world where we have learned that *peace is only for the strong!*

### Great News! New money-earning features for U. S. Defense Bonds!

**FIRST**—Thanks to new Treasury regulations, every Series E Bond you invest in begins earning interest after only 6 months. It earns 3% interest compounded semiannually when held to maturity. It reaches full maturity value

earlier (9 years 8 months) and the interest it pays is now bigger at the start.

**SECOND**—Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!

**THIRD**—During the 10-year extension period, every *unmatured* Bond earns at the *new, higher* interest rate (average 3% compounded semiannually). Your original \$18.75 can now pay you back \$33.67. \$37.50 pays back \$67.34. And so on.

**FOURTH**—If you want to be paid the interest your Bonds are earning every six months, or if you want to invest more than the present \$20,000 limit for E Bonds, ask at your bank about the new Series H, J and K Defense Bonds.

### Why the Payroll Savings Plan is the world's easiest way to save money!

More than seven and one-half million Americans are now saving easily and regularly on the Payroll Savings Plan. It's the plan that works because it saves money out of your check every payday before you have a chance to spend it. And you know, no matter how large or small your income, you can't afford *not* to save something for yourself! So today, sign up for the Payroll Savings Plan where you work. Or the Bond-A-Month Plan where you bank.

### Fatally Injured In Auto Accident

Cornelius J. Brennan, 58, of 75½ School st., was struck by an auto while crossing Route 28 in North Reading about 10:30 o'clock Christmas night and was pronounced dead upon arrival at the Lawrence General hospital.

State police who investigated reported that with his brother, Michael of Brook st., Brennan had been visiting in the Martin's pond area of North Reading and both were waiting for a taxi when the accident occurred. Cornelius had been to a service station to phone for the cab and was crossing the highway when struck.

State police identified the driver as Mrs. Marie M. Kavanaugh of High st., Waltham, who was traveling south on her way home with her husband at the time of the accident.

Brennan was taken to the hospital in the North Reading police ambulance.

Dr. John T. Batal, medical examiner, stated that the victim had died from a fractured skull and other injuries.

A native of Yorkshire, England Mr. Brennan made his home here for the last 44 years and attended St. Augustine's church. He was employed for a number of years as an elevator operator in the Shawsheen mill.

He leaves his widow, Theresa Maude (Smith) Brennan; four sons, all members of the armed forces, Staff Sergeant Joseph Brennan, U.S.A.F., stationed at Great Falls Air Force base, Montana, Staff Sergeant Charles Brennan, U.S.A.F., stationed at Lages Air Force base in the Azores, Seaman Francis Brennan, U.S.N., a member of the crew of the U. S. S. McCaffrey and Airman, third class, Robert Brennan, U.S.A.F., stationed at Amarillo Air Force base, Tex. The latter two are spending a Christmas furlough at the family home. He also leaves two brothers, Michael of Andover and John of Boston and a sister, Miss Helen Brennan of New London, Conn.

The funeral was held Monday from the M. A. Burke Memorial funeral home with a high Mass of requiem at 9:30 a.m. in St. Augustine's church. Burial was in St. Augustine's cemetery.

### Obituaries...

#### MRS. BERTHA BAILEY

Mrs. Bertha (Chandler) Bailey of Bailey rd., West Andover, died Tuesday morning in the Lawrence General hospital following a short illness. She was the widow of Frank E. Bailey.

Born in Andover 92 years ago she was the oldest resident of West Andover, oldest member of West Parish church, and oldest member and charter member of Andover Grange.

She is survived by a son Chandler Bailey of West Andover, four grandchildren and two great grandchildren.

The funeral will be held Friday at 1:30 p.m. from the Saunders Funeral home, Lowell, with services conducted by the Rev. J. G. Gaskill, pastor of West Parish church. Burial will be in the Lowell cemetery.

Friends may call at the funeral home Thursday from 3 to 5 p.m. and 7 to 9 p.m.

#### MISS ELEANOR R. PRATT

Miss Eleanor R. Pratt, a former resident of Shawsheen Village, died Sunday night at the home of her niece, Mrs. Rachel Kitchen Young, Freeport, Me., after a long illness.

She was employed in the office of the American Woolen company for many years in both the Washburn mills, Lawrence and the Shawsheen mills.

Funeral arrangements are incomplete, but committal services will be held in West Parish cemetery.

#### BANISH WASHDAY BLUES

Most washday blues would vanish quickly if homemakers enjoyed better lighting in their laundries. Get a tip from General Electric lighting experts who have worked out several recipes for laundry lighting.

One of the quickest to install in the laundry trays is a circular reflector of 12 to 14 inches in diameter with a 150-watt silvered bulb.

If you're building a new home you may want to consider one of the newer fluorescent fixtures with at least two 25-watt tubes.

Use the same types and sizes of fixtures over ironing boards. When placing fluorescent fixtures over ironing boards place the fixture on the ceiling with the center of the unit five inches back from the front edge of the ironing board.

I admire you."*

says **BARBARA STANWYCK**

*I've always admired* straight-forward people. The kind of people who know what they want, and are doing something about getting it. The kind of people who are investing in their future and the peaceful future of their country through United States Defense Bonds. People like you!

I'm a regular Bond owner myself. And when I think about how you and I and millions of our friends and neighbors now own more than 49 billion dollars worth of our country's interest-earning Bonds—it makes me proud. It means that we're a part of the greatest patriotic success story of all time.

A success story that we Americans have built of our own free will. Not only because we have found that Defense Bonds are a sure way to save money. But because we believe they represent a realistic plan for peace and security—in a world where we have learned that peace is only for the strong!

**Great News! New money-earning features for U. S. Defense Bonds!**

**FIRST**—Thanks to new Treasury regulations, every Series E Bond you invest in begins earning interest after only 6 months. It earns 3% interest compounded semiannually when held to maturity. It reaches full maturity value

earlier (9 years 8 months) and the interest it pays is now bigger at the start.

**SECOND**—Every Series E Bond you own can now go on earning interest for 10 more years after it reaches the original maturity date—without your lifting a finger!

**THIRD**—During the 10-year extension period, every unmaturing Bond earns at the new, higher interest rate (average 3% compounded semiannually). Your original \$18.75 can now pay you back \$33.67. \$37.50 pays back \$67.34. And so on.

**FOURTH**—If you want to be paid the interest your Bonds are earning every six months, or if you want to invest more than the present \$20,000 limit for E Bonds, ask at your bank about the new Series H, J and K Defense Bonds.

**Why the Payroll Savings Plan is the world's easiest way to save money!**

More than seven and one-half million Americans are now saving easily and regularly on the Payroll Savings Plan. It's the plan that works because it saves money out of your check every payday before you have a chance to spend it. And you know, no matter how large or small your income, you can't afford not to save something for yourself! So today, sign up for the Payroll Savings Plan where you work. Or the Bond-A-Month Plan where you bank.

### Fatally Injured In Auto Accident

Cornelius J. Brennan, 58, of 75½ School st., was struck by an auto while crossing Route 28 in North Reading about 10:30 o'clock Christmas night and was pronounced dead upon arrival at the Lawrence General hospital.

State police who investigated reported that with his brother, Michael of Brook st., Brennan had been visiting in the Martin's pond area of North Reading and both were waiting for a taxi when the accident occurred. Cornelius had been to a service station to phone for the cab and was crossing the highway when struck.

State police identified the driver as Mrs. Marie M. Kavanaugh of High st., Waltham, who was traveling south on her way home with her husband at the time of the accident.

Brennan was taken to the hospital in the North Reading police ambulance.

Dr. John T. Batal, medical examiner, stated that the victim had died from a fractured skull and other injuries.

A native of Yorkshire, England Mr. Brennan made his home here for the last 44 years and attended St. Augustine's church. He was employed for a number of years as an elevator operator in the Shawsheen mill.

He leaves his widow, Theresa Maude (Smith) Brennan; four sons, all members of the armed forces, Staff Sergeant Joseph Brennan, U.S.A.F., stationed at Great Falls Air Force base, Montana, Staff Sergeant Charles Brennan, U.S.A.F., stationed at Lages Air Force base in the Azores, Seaman Francis Brennan, U.S.N., a member of the crew of the U. S. S. McCaffrey and Airman, third class, Robert Brennan, U.S.A.F., stationed at Amarillo Air Force base, Tex. The latter two are spending a Christmas furlough at the family home. He also leaves two brothers, Michael of Andover and John of Boston and a sister, Miss Helen Brennan of New London, Conn.

The funeral was held Monday from the M. A. Burke Memorial funeral home with a high Mass of requiem at 9:30 a.m. in St. Augustine's church. Burial was in St. Augustine's cemetery.

### Obituaries...

#### MRS. BERTHA BAILEY

Mrs. Bertha (Chandler) Bailey of Bailey rd., West Andover, died Tuesday morning in the Lowell General hospital following a short illness. She was the widow of Frank E. Bailey.

Born in Andover 92 years ago, she was the oldest resident of West Andover, oldest member of West Parish church, and oldest member and charter member of Andover Grange.

She is survived by a son Chandler Bailey of West Andover, four grandchildren and two great-grandchildren.

The funeral will be held Friday at 1:30 p.m. from the Saunders Funeral home, Lowell, with services conducted by the Rev. John G. Gaskill, pastor of West Parish church. Burial will be in the Lowell cemetery.

Friends may call at the funeral home Thursday from 3 to 5 p.m. and 7 to 9 p.m.

#### MISS ELEANOR R. PRATT

Miss Eleanor R. Pratt, a former resident of Shawsheen Village, died Sunday night at the home of her niece, Mrs. Rachel Kitchen Young, Freeport, Me., after a long illness. She was employed in the office of the American Woolen company for many years in both the Washington mills, Lawrence and the Shawsheen mills.

Funeral arrangements are incomplete, but committal services will be held in West Parish cemetery.

#### BANISH WASHDAY BLUES

Most washday blues would vanish quickly if homemakers enjoyed better lighting in their laundries. Take a tip from General Electric Lighting experts who have worked out several recipes for laundry lighting.

One of the quickest to install over the laundry trays is a circular metal reflector of 12 to 14 inches in diameter with a 150-watt silvered bowl bulb.

If you're building a new home you may want to consider one of the newer fluorescent fixtures with at least two 25-watt tubes.

Use the same types and sizes of fixtures over ironing boards. When placing fluorescent fixtures over ironers place the fixture on the ceiling with the center of the unit five inches back from the front edge of the ironer.

## Dimes Must Match New Polio Gains

For the second time since it was inaugurated a decade and a half ago, the March of Dimes in 1953 will run for a full month, from January 2 through January 31. This decision was forced by the record number of polio cases reported in 1952 and the tens of thousands of patients stricken in previous years who still needed financial aid from the March of Dimes.

Another factor which led to the extended campaign period was the considerable expense of carrying the research fight against polio out of the laboratories and into the ranks of man himself.

Of the more than 55,000 persons treated for polio in 1952, approximately 44,000 were assisted in whole or in part by the March of Dimes.

JOIN THE MARCH OF DIMES  
THE NATIONAL FOUNDATION FOR INFANTILE PARALYSIS

The field trials to test the effectiveness of a possible preventive of paralytic polio were underwritten by the National Foundation for Infantile Paralysis in addition to other vital research projects. Some 55,000 youngsters took part in the trials.

Basil O'Connor, president of the National Foundation for Infantile

Paralysis, in commenting on need for a month-long, instead of a two-week campaign, said, "It is as if the foe, listening closer to the conquest of polio itself is mobilizing all forces to attack mankind with ever-increasing savagery."

"It is as if the foe, listening to its own death knell, is testing the limit the determination of American people and attempting to wreck the morale which has sustained us and inspired us to carry the fight to the very threshold of victory."

"We must not falter now in victory delicately poised on a balance against unprecedented problems, we must throw all weight on the side of the fighters regardless of the cost. We must contribute more dollars, more energy and more money than ever before to the March of Dimes."

Half of all money contributed to the March of Dimes is used by our county chapter to help pay cost of treating local polio patients or, in emergencies, polio patients elsewhere. The other half goes to the National Foundation for Infantile Paralysis, professional education and epidemic aid programs.

### COPY OF OLD NEWSPAPER

(Continued from Page One)

The advertising contained many interesting bits of information and in accordance with the times was made up of various styles of old-fashioned type.

Noted in much of the Lawrence advertisements was the fact that their addresses were in "City Block, Lawrence".

A \$200 reward was offered for information leading to the arrest and conviction of the person who set fire to the barn of W. Phillips Foster on the night of March 12. It was signed by the board of selectmen, at that time made up of the following five members, George Foster, Joseph Shattuck, S. K. Johnson, Daniel Carleton and Asa A. Abbot.

Miller & Abbot of Lowell told people of Andover that they are prepared to take every style of daguerreotype.

Abbot Female academy announced the opening of its next term on Apr. 11.

Another advertisement under "For Sale" was a front pew in the Old South church. The Andover Historical society announced its annual meeting would be held in the office of Moses Foster Jr., the secretary.

One clothier advertised an an-

nual sale of winter clothing with fine custom made overcoats going at \$10 and \$12. Thomas Richards said he was baking all kinds of cakes, pies and similar delicacies at the old bakery on Salem street. The Boston & Maine RR instructed prospective riders about the connections that could be made to Lowell at Wilmington Junction, and connections to Newburyport via Bradford.

Samuel Morrill, William C. McDonald and George H. Morrill called attention to the fact that they manufactured printers ink at the old depot building on Main street, and other ads told of the excellence and scope of work carried on by local tinsmiths and blacksmiths.

The paper, which was Vol. 3, No. 7 of the Andover Advertiser carried other interesting and timely intelligence of Andover people and doings in nearby communities which made up the life of those who lived here a century ago.
